STAHLS' Hotronix®

HIGH PROFIT, HIGH IMPACT HATS
ONE MACHINE

The Hotronix® 360 IQ™ Hat Press has all the features you need to create unique, high profit hats.

UPPER & LOWER HEAT
Heat from the lower platen makes application of dimensional emblems and embroidered or leather patches easy with dependable, quality results.

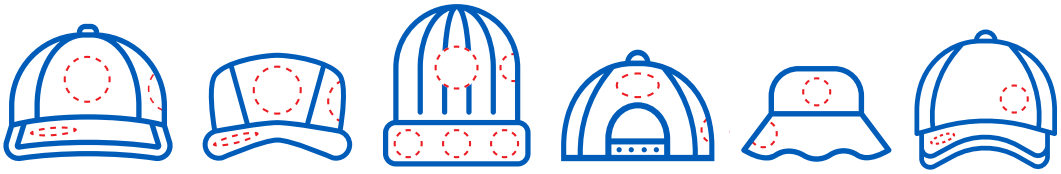
FULL PRINT RANGE
Create high-end retail looks in seconds by printing on the front, back, and sides of a hat with one single platen. More Placements = More Profits

NO HEAT PRESS CREASE
The uniquely designed molded lower platen forms to the shape of a hat, eliminating the heat press crease on decorated hats.

NO SCORCHING
Control the upper and lower platens independently. Reduce heat from the upper platen to protect heat sensitive hats from scorching.

STAHLS' Hotronix®

THE HOTRONIX® 360 IQ™ DYNAMIC PRINT RANGE
MAKES EVERYTHING POSSIBLE



ANY PLACEMENT

From structured to unstructured, trucker, or bucket - the molded lower platen lets you easily print unique placements not possible with other decorating methods.

ANY DECORATION

From traditional heat transfers to dimensional emblems, heat from the upper and lower platens give you the flexibility to decorate hats with any decoration method.
